

2D Pixel Mart Items - ReadMe

Description

2D Pixel Mart Items is a versatile pixel art collection designed for developers who want to add detailed and charming everyday items to their 2D games. This pack is ideal for shop systems, inventories, crafting mechanics, life simulators, or casual management-style games.

The pack includes 100+ pixel-perfect 32×32 PNG icons covering a wide variety of categories:

- **Foods:** Fruits, drinks, snacks, dairy, condiments, canned goods, and more.
- **Kitchen/Bathroom Essentials:** Soap, sponges, toilet paper, detergent, frying pans, bowls, chopping boards, and cleaning tools.
- **Stationery:** Pens, pencils, erasers, scissors, glue, batteries, and other everyday items.
- **Miscellaneous:** Toys, toiletries, household items, and decorative pieces.

Each sprite is crafted in 32×32 resolution, making them lightweight and easy to integrate into any project. Whether you're building a cozy mart simulator, an RPG with an inventory system, or a survival crafting game, these items will add variety and realism to your world.

Summary

A versatile pack of 32×32 pixel art mart items including food, kitchenware, bathroom essentials, and stationery — perfect for shops, inventories, and casual 2D games.
